

The State of Israel promotes the use of vehicle safety systems and equipment which can help to prevent accidents and ultimately save lives. In order to encourage importing vehicles in categories M1, N1 that are equipped with the new technological developments, the state of Israel is granting tax incentives to some designated systems.

For the purpose of tax credit, the manufacturer/importer is required to provide information of safety systems designed, constructed and installed in vehicles intended to be imported to Israel.

Marking "X" declares that the system is installed on the specified vehicle model.

Marking "O" declares that the system is optional on the specified vehicle model.

Marking "- " or leaving blank declares that the system does not exist and is not optional on the specified vehicle model.
